✓ What You can Expect

Our Data Strategy Workshop is divided into five half-day working sessions, where we will:

Session 1
- Define data strategic needs
- Identify stakeholders
- Assess current technology and architecture

Session 2
- Explore technologies, capabilities and framework
- Review compliance and auditing needs

Session 3
- Create a backlog of business priorities
- Identify quick wins

Session 4
- Identify gaps between current state and desired future state
- Outline a plan to fill the gaps

Session 5
- Lay out next steps and deliverables

Prolifics Strategic Workshops empower you to achieve a successful digital transformation and accelerate your business. Our experts peel back the layers to understand your challenges and objectives and create a roadmap to drive your business outcomes.
